Abstract: This workshop will introduce some recent work on spatial studies of religion and society. The presentation will discuss data, methodology and some case studies for spatial religion studies. The presentation will also introduce the newly developed spatial explorer for spatial analysis of religion and societies of China. It will demonstrate how space-time data of different formats and sources can be integrated, visualized, analyzed and reported in a web based system. Some case studies will be discussed for spatial studies of religion and society of China.

Lecturers:

Dr. Z. George Hong is Professor of History at Purdue University Calumet (PUC) and Co-Director of the Center on Religion and Chinese Society at Purdue University. Dr. Hong received his Ph.D. in history from the University of Maryland in 1992. His research interests include contemporary China, US-Sino relationship, comparative studies, and economic history.

洪朝辉博士是普渡大学（凯优曼校区）历史学终身教授，普渡大学（西拉法耶校区）中国宗教与社会发展研究中心共同主任。他于 1992 年获得美国马里兰大学历史学博士。研究领域为当代中国、中美关系、比较现代化和经济史等。

Shuming Bao received his B.S. in computer science from Hefei University of Technology in 1982, M.A. in applied statistics from Shanghai University of Finance and Economics in 1987, and Ph. D. in applied economics from Clemson University in 1996. He was a research scientist at MathSoft from 1996-97, and is currently the director of the China Data Center at the University of Michigan in Ann Arbor.

鲍曙明，合肥工业大学计算机学士（1982），上海财经大学应用统计硕士（1987），美国 Clemson University 应用经济学博士（1996）。1996-97 间任美国数软公司研究研究员。1997 年起受聘于密西根大学，现任中国信息研究中心主任。主要研究兴趣包括地理信息系统，区域经济学，空间统计学和空间计量经济模型。
